Studies Offered

Considering Adoption:

Has adoption been on your heart? Are you curious if God is really calling you to adopt?

Post-Adoption:

Have you journeyed through the adoption process and would like more support with the child or children that God has brought into your family?

Orphan Care:

Are you interested in learning more about orphan care in general and about God's heart for the fatherless?

If you are interested and want more details about these studies, please contact Becky or Loni. These studies will begin in January!

Trainings

Would you like to impact foster or adoptive families and their children by providing parents some time away to reconnect with one another? Do you want to find out how you could provide care to children impacted through the foster care system? If so, please attend our **Respite Care Training** offered on November 20th from 9-3:00pm at Christ Community. For more information or to RSVP contact Tanya Hammer at 303-755-4756 or Tanya@adoptex.org

The Forever Families Adoption Ministry has partnered with Weld County Human Services to provide **FREE monthly trainings** for all of our pre and post-adoptive families this year. Stay tuned for more details about the trainings that will be offered in 2011!
